

**City of Santa Barbara
Public Works Department**

**Public Notification
for The Structural Upgrades for
Parking Structures 9 and 10 Project**

February 3, 2011

Construction work on Lots 9 (Lobero Garage) and 10 (Ortega Garage), located in the downtown area, is scheduled to begin on February 7, 2011, immediately following the conclusion of the Santa Barbara International Film Festival.

The construction work is scheduled to occur between February and May 2011. Due to public safety, cost, and scheduling concerns, both garages will be shut down completely, including evenings and weekends, during construction. The work at Lot 10, located at 621 Anacapa Street, will begin first. Lot 10 is expected to be closed from February through April 2011 (50 working days). The work at Lot 9, located at 921 Anacapa Street, is estimated to begin in April/May 2011 for 20 working days, following completion of the work at Lot 10.

Construction work at Lot 10 involves repairing, reinforcing and supporting specific concrete beams, columns and girders, and bringing the accessible parking spaces into current compliance with the Americans with Disabilities Act.

The construction work at Lot 9 involves repair and reinforcement of two beams on two levels of the structure. Repairs are necessary to enhance the seismic stability of both structures for the public's safety.

Signs will redirect traffic to neighboring City parking lots, such as Lot 2 and Lot 11. There is sufficient capacity in those neighboring City parking lots to compensate for the loss of parking spaces during construction.

You will receive additional updates about the project and there will be additional information on the City's website at:

http://www.santabarbaraca.gov/Resident/Community/Neighborhood/Major_Construction_Projects/

as the construction date nears. If you have questions regarding the project, the Public Meeting, or the construction start date, please contact Victor Garza, Parking/TMP Superintendent, at (805) 564-5656, or via email at VGarza@SantaBarbaraCA.gov.
